CT-Special Education Data System Update

February 24, 2022
Connecticut Association of Schools

Partnership
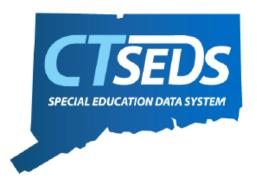

Purpose and Value of CT-SEDS

- Provide one statewide, web-based special education IEP and data management system at no cost to school districts.

- Support the development of IEPs that are compliant and of high quality.

- Access to student and aggregate reports for multiple users including teachers, parents, district personnel and CSDE.

- Consolidate the timely and accurate collection and reporting of data.

- Reduce local data reporting and paperwork burdens.

- Provide a document repository that facilitates timely record transfers.

- Ensure differentiated secure access to student data and parent portal.
