Connecticut's Educational Leadership

Self Inventory Adapted to Provide Staff Member Feedback

(STAFF) ELSI

Purpose: This Inventory is designed to provide a profile of educational leadership. It consists of 68 statements that describe performances contained within the CSDE Standards for School Leaders. The ELSI was originally designed to promote self-appraisal and reflection focused on the School Leader Standards and this version has been adapted for school leaders interested in collecting the perceptions of staff with regard to observable performances over the course of a year.

Please note: This instrument is intended solely for the purpose of assisting the school leader to collect staff perceptions of performance associated with the Standards. It represents only one of a number of indicators of school improvement.

Directions: You are asked to respond to each question by reflecting on your observations of leadership performance of this principal or assistant principal over the past 10-12 months. Read each question carefully, then circle the number that indicates the extent to which you feel this individual has demonstrated the performance during the past 10-12 months. In responding to each question:

- 1. represents Seldom/Almost Never;
- 2. represents Sometimes;
- 3. represents Frequently; and,
- 4. represents Almost Always;
 - *or check N/A If not applicable
 - *If you have not had the opportunity to observe a particular area, simply circle N/A.

If you find some statements difficult to rate, use your judgment in selecting the most appropriate rating (e.g., something that is never done may be rated as Seldom/Almost Never or, something that is done "more than frequently" or that is done "continually" may be rated as Almost Always). You are encouraged to make comments in the space provided to clarify the rating selected or to further explain your rating. Circle only one number per question and try to respond to every question.

The format for this questionnaire is based on the Principal Instructional Management Scale, Philip Hallinger (1984). The rating scale and the content of the questionnaire are based on the Connecticut State Department of Education's (CDSE) Standards for School Leaders, adapted by Larry Jacobson (8-15-01).

DEVELOPING THE EDUCATIONAL LEADERSHIP PROFILE

Purposes:

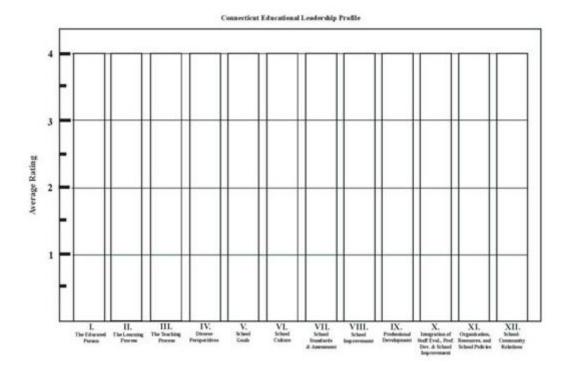

To provide a tool for school leaders to gauge the perception of their staff on their demonstrated leadership skills based on the SSL.

Directions:

- 1. Complete the Educational Leadership Self Evaluation (ELSI) rating scale.
- 2. After completion, go back and add each rating by Standard I though XII. Simply add the scores within each standard (e.g., I. The Educated Person), and divide by the number of items. Fill in the mean rating in the space located on the right hand side of the page at the end of each standard.
- 3. Transfer your ratings to the graph below. This graph will display your areas of relative strength with respect to each of the 12 Standards.
- 4. Note: Your rating should only be shared with the school leader.
- 5. The completed graph below has been provided to allow you to compare your ratings to the importance ratings of 251 Connecticut Principals who participated in the "Successful Principal Study" (Iwanicki, Carmelich, Fusco, Nocera, Russo and Wolters, 1995). Although you are being asked to consider the extent to which the school leader performs in certain areas, remember that the ratings on the last page are based on how important the performances were to principals' effectiveness.

The shaded area represents the average importance entings by principals participating in the University of Connection's Successful Principal study. Participants responded to the question: "How important is this to my success in my current position?" for each of the 68 Standards Performance Statements. n=251
