Workshops

Each participant may choose 4 workshops and will be assigned 2. Workshop assignments will be made on a space available basis, and every effort will be made to select at least one top choice. Have everyone's choices ready before beginning the online registration. Choose from:

A. Photogram

Create abstract color photos without using negatives.

B. Plein Aire

Learn methods for outdoor landscape painting with emphasis on spontaneous impression, capturing light, and mood.

C. Wire Sculptures

Participants will create line drawings from a subject of their choice. They will then manipulate wire to create kinetic sculptures suitable for hanging.

D. Water Color

Above-the-water and below-the-water. Learn four watercolor techniques and apply them to either a seascape or underwater sea life.

E. Pen and Ink

Use ink the old fashioned way! Dip your ink nib into an ink well and learn techniques like cross hatching and stippling to capture the influence of light and form.

F. Stuck On You

Discover the possibilities and pleasures of creating original folding wallets with colorful duct tape. These extraordinary, functional, and water resistant items will hold money, keys, photos or iPods. The structure, appearance and function of product design will be discussed. Stick around for an optional extra sculpture project!

G. Mask-Tastic Metal Creations

Be inspired by cultures from around the world, and create a mask or sculpture made from recycled metal and found object materials. Your artwork will represent personal power and meaning while learning that the simplest tools and resources can create mask-tastic creations and more!

H. Cartooning

Working from a storyline, develop a cartoon character to be put into a comic strip created by each artist.

I. Drawing

Expressive drawing with line and rhythm. Drawing with a live model.

J. Printmaking

Participants will design and print note cards using linoleum blocks and ink.

K. Acrylic and Mixed Media

Create a hip-hop poster using a variety of pencils, markers, paints, and collage techniques.

L. Fun with Freaky Fractals and Digital

Media Art is about patterns of color. Math is about patterns of numbers. Learn to use a computer to make beautiful and colorful art using simple math.

M. Kaleidoscope

Kaleidoscopes are fascinating to people of all ages. Create your own working model. Constructed of plastic mirrors, translucent beads, and other goodies, your fabulous masterpiece will be uniquely decorated and ready to take home.
