**Presents  
MARINE SCIENCE  
DAY**

**At Avery Point in Groton and  
CT River Museum in Essex**

**For 5<sup>th</sup> - 8<sup>th</sup> Grade  
Students**

**Wednesday, May 14, 2008  
9:00am – 3:00pm**

**THE REASONS WHY**

The purpose of this conference is to educate students about Long Island Sound and Marine Science. Each student will be individually scheduled to participate in a series of workshops presented by university personnel, graduate students, and environmental educators from a variety of organizations and institutions. These workshops will promote a greater awareness of Long Island Sound and Marine Science.

***This year the Long Island Sound Foundation will provide a grant to selected schools for half their transportation cost plus reimbursement for their student registration.***

Following the event, teachers may submit one page on why their school should be selected to qualify for this grant.

- Teachers must collaborate with their students.
- What was their learning experience at Marine Science Day?

---

An outreach program has been added to Marine Science Day at the Connecticut River Museum. 72 students will be selected for this program on the river and the watershed. A detailed program will be provided to the selected schools.

**Each student must bring lunch and a snack.**

The committee encourages each student to pack a lunch that will generate the least amount of trash. Bring your own beverage. *(No glass containers.)*

**Students should dress for hands-on activities, i.e., outdoors, boat trip and classroom floor, etc.**

***Materials will be handed out at workshops.***

### **AVERY POINT PROGRAM**
