

Dear Principal, Assistant Principal, Dean of Students,

Do you have a creative, forward-thinking student activity advisor who is making a difference in your school/community? Of course you do!

CAS' student activities division is planning a half-day statewide conference in the fall to spotlight innovative and impactful student activities that are being sponsored in Connecticut's K-12 schools. We need your help to make this best-practice expo a success!

Please consider nominating a student activity advisor from your school to present his/her program or project at the conference. The selected advisor will be asked to share specific details about his/her activity in a twenty-minute, rotating carousel format. Attendees will walk away with a toolkit of amazing ideas to improve their student activity and climate programs.
