## 2008-09 NATIONAL FEDERATION SWIMMING RULE CHANGES

- Rule 3-3-4 Was revised to penalize a competitor for a subsequent violation of wearing jewelry and/or illegal attire through “disqualification in the heat/round and ineligibility for the remainder of the meet if not corrected.”
- Rule 6-3-4 There must now be a difference of more than 0.3 seconds between automatic and backup times” in order to consider a potential timing system malfunction. Current meet administration software and timing systems now recognize a potential timing malfunction with more than a 0.3 difference and the revision allows officials to utilize current technology for efficient meet administration.
- Rule 2-4-3 Revised to state that when practical, the numbering of lanes should be from right to left as the swimmer stands facing the course.
- Rule 2-7-4 Requires a “recall device” for recall races, but no longer specifies a recall rope since this is just one of several recall devices.
- Rule 4-2-2 Clarified that when there is dual confirmation, it is not proper mechanics for the officials to raise their hand for a violation for relay takeoffs and the no-recall false start.
- Rule 8-1-2 Clarifies that a backstroke competitor shall become stationary immediately after the starting command, “Take your mark.”
- Rule 9-1-1 In diving – Clarifies the water depth at any point 2 to 5 feet in front of the end of the board is 12 feet, with an exception of 10 feet for any pool constructed prior to January 1987.
- Editorial change Changed the term “motionless” to stationary” in directions to officials for starts. By using the term stationary, a competitor cannot be disqualified by a twitching hamstring, but continues to not allow movement by the swimmers once in the starting position.
