Participants will gain insight into their personal strengths and style of leadership. They will connect with other talented students and presenters, creating a community of supporters and allies for the opportunities and challenges to come. Not only will the presentations inspire and inform, they will serve as a springboard for work on goals, projects, ideas and concerns participants are facing in their own communities and lives. **One part** of this conference is about **networking, getting ideas, establishing communities of support and resources.** **Another part** is about **finding the unique skill set, voice and passion that each one of us has inside.**
