

2026-27 LEADERSHIP ACADEMY

Let CAS help you
GROW & RETAIN
your teacher leaders

The CAS Leadership Academy provides teacher leaders with a powerful pathway for professional growth. Our high-impact curriculum focuses on essential skills for today's environment—from emotional intelligence to change management—building the leadership capacity needed to improve educator retention and student success.

Districts are encouraged to send a team of teacher leaders to engage with colleagues from across the state in four full-day and one half-day sessions held at the Connecticut Association of Schools office in Cheshire, CT.

For districts with
12-15 teacher
leaders, CAS can
customize an
on-site program
for you
