This year we are pleased to announce our new 2-year cycle of activities (high rope, low rope). This year's morning activities will include a HIGH ROPES portion with the raft building contest in the afternoon.

Lunch is included!

ROPES COURSE:

The morning portion of the day focuses on participants developing skills in problem-solving, communication, decision making, trust, as well as a strong sense of self-worth and accomplishment.

RAFT BUILDING CHALLENGE:

Always a favorite, this group activity requires the application of the communication and teamwork that was developed in the morning. This challenge sees our teams attempt to build the perfect craft to carry them out onto Dunning Lake and back.
