ACADEMY RATIONALE

The Connecticut State Department of Education, the Connecticut Association of Schools, and Cooperative Educational Services - with support from the Wallace Foundation - are collaborating in order to develop a standards-based school leader induction program to support and grow school leaders for school improvement. It is anticipated that the results of this three year effort will inform both local and state policy and influence positively the future induction of all new administrators within Connecticut.

This Academy is scheduled during the summer in order to provide each participant an opportunity to

- *reflect on experiences from the past year.*

- *focus on current data and implications for change.*

- *learn change practices and strategies.*

- *make data-based decisions happen.*

The Academy will allow participants to identify the strategies needed to engage key stakeholders and lead desired change in the next year.
