

Superintendent and Executive District Leader Preparation Program

A virtual panel of highly regarded superintendents will share insights about the rewards and challenges of the superintendency. Panelists will share their experiences serving as a superintendent mentor to students during the year-long internship. Current students will join the panel to share their experiences regarding the coursework, guest speakers, and their internship shadowing an active Connecticut superintendent.

The panel will be moderated by Dr. Kate Carter, CCSU's 093 Program Coordinator. Dr. Carter has served as the Superintendent of Schools in South Windsor for the past 16 years and teaches in the 093 program alongside many other distinguished former and current superintendents.
