The Connecticut Arts Administrators Association, Inc. is pleased to offer its time-honored **Summer Arts Institute** with expanded opportunities. The **Connecticut Summer Arts Institute** is open to all arts educators, administrators and professional teaching artists. The Summer Institute provides highly qualified instructors, mentoring, models, and interactive group discussions that support essential aspects of curriculum and program development. This year we offer specialized training for teachers and teaching artists who need to create programs, building level, or district curriculum with practical applications of instruction and assessment aligned with the National Core Music Standards, including: *Mastery-Based Learning and Capstone Project development*, and *DEI, SEL, and Social Justice practices*.

School Districts are encouraged to come in teams with special rates for groups. Three graduate credits will be offered through the University of Hartford for those who may be interested. Your project will be tailored to your specific personal or collective needs. See the CAAA website link for more information: www.ctaaa.net

The goals of the Arts Institute are to assist participants in:

- *Meet individual and/or district needs in the areas of curriculum, instruction and assessment*
- *Aligning curriculum and instruction with the National Core Arts Standards*
- *Recognizing and applying methodology that addresses social-emotional learning, equity, and access.*

This institute is made possible with the support of the Connecticut Department of Economic and Community Development, Connecticut Office of the Arts, which also receives support from the National Endowment for the Arts, a Federal Agency.
