

SPECIAL EDUCATION SERVICES IN TODAY'S CONTEXT

Continuing the Conversation for Early Childhood Special Educators & Related Services Professionals

Wednesday, October 14, 2020 | 3:30-4:30 PM

On October 14 at 3:30 p.m., members of the RESC Alliance, in collaboration with the CT State Department of Education and CAS, will continue our discussion on special education services in today's context. Early childhood special educators and related services professionals are invited to participate in this crucial and timely conversation as we explore strategies and tools for practitioners' implementation of specially designed instruction in today's learning environments.

Participants will build their understanding of the purpose of specially designed instruction and how it fits into designing learning opportunities for young children, both in person and virtually.
