Speaker: Dr. Jim Fitzgerald

I always have seen myself as a simple teacher. My homeroom assignment may have changed, and the class size might be considered too extreme, but my perception of myself has not really altered. Schools and society today face many challenges. Wishful thinking would narrow the focus of student leadership to school dances, fundraisers, bake sales and other traditional school related concerns, but that is what it is - wishful thinking. Student leaders live and operate in the real world. We must do everything we can to prepare them to do so, because student leadership is the answer.
