INCREASING FAMILY ENGAGEMENT AND CHILDREN'S LEARNING THROUGH COACHING

A Conversation for Early Childhood Administrators & Educators

December 3, 2020 | 9:00 am - Administrator Session

December 9, 2020 | 3:30 pm - Teacher Session

The RESC Alliance, in collaboration with the CT State Department of Education and CAS, continues its monthly roundtable discussions on the delivery of preschool programming in public schools. These networking sessions are designed to spotlight the needs of all of our youngest learners including children with special needs and other vulnerable populations. Below is the description of the December sessions.

Increasing Family Engagement & Children's Learning Through Coaching

These unique times have required educators to think deeply about all aspects of education. December's roundtable conversations will focus on families, specifically the use of coaching as an interaction style. Participants will gain an understanding of coaching and how it supports teachers to build relationships with families, and implement curriculum and specially designed instruction in developmentally appropriate ways during distance learning. Participants will have time for Q&A with CSDE/ Early Childhood RESC specialists and can talk with others in small groups during breakout sessions. Strategies and tools to support each phase of the coaching cycle will be shared during the December 9 teacher session.
