THE FOUNDATION CENTER

Established in 1956 and today supported by close to 550 foundations, the Foundation Center is the leading source of information about philanthropy worldwide. Through data, analysis, and training, it connects people who want to change the world to the resources they need to succeed. The Center maintains the most comprehensive database on U.S. and, increasingly, global grantmakers and their grants — a robust, accessible knowledge bank for the sector. It also operates research, education, and training programs designed to advance knowledge of philanthropy at every level. Thousands of people visit the Center's web site each day and are served in its five regional library/learning centers and its network of 470 funding information centers located in public libraries, community foundations, and educational institutions nationwide and around the world.

COOPERATING COLLECTIONS

Cooperating Collections are free funding information centers in libraries, community foundations, and other nonprofit resource centers that provide a core collection of Foundation Center publications and a variety of supplementary materials and services in areas useful to grantseekers.
