IEP Quality Training for General Education Administrators

General educators and administrators play a pivotal role in ensuring the success and well-being of students with Individualized Education Programs (IEPs). This comprehensive 6-hour training is designed to equip general education administrators with the knowledge and skills necessary to understand and collaborate effectively with their special educator colleagues within the context of Connecticut's new IEP requirements.

By the end of this course, participants will be able to:

- **Understand the Foundation of IEPs:** General education administrators will gain a deeper understanding of the critical role they play in the IEP process, particularly in providing essential data to inform the creation of Present Levels of Performance (PLOP), which serves as the foundation for an effective IEP.
- Facilitate **Supplemental Aids and Services (SAS):** Learn how to identify and implement a variety of supportive measures, including accommodations, modifications, assistive technology, and adult support, to meet the diverse needs of students with IEPs, fostering an inclusive learning environment.
- Inform **High-Quality IEP Goals and Objectives:** Understand how the classroom instructional cycle intersects with the development of high-quality IEP goals and objectives. General education administrators will learn how to align their teaching strategies with these goals to ensure student progress and success.
- Collect **Progress Monitoring Data:** Discover effective strategies for collecting and documenting critical progress monitoring data related to IEP goals and objectives. This information is vital for tracking student growth and making data-informed decisions.

DATES: Elementary Administrators - Tuesday, Nov 28, 2023
[REGISTER](#) via ACES

Middle and Secondary Administrators - Wednesday, Nov 29, 2023
[REGISTER](#) via ACES
