Ever wonder what your CASC dues can and should do to enhance student leadership in your school/community? On behalf of CASC, send a team from your school to the first ever luncheon for high school leaders and learn much more about the importance of the voice of your student body. From service to activity planning to leadership development to civic engagement, you'll be sure to walk away from the luncheon with a toolkit filled with ideas! Come and hear the voices of Connecticut student leaders who have participated in CASC initiatives share their stories.

The Connecticut Association of Schools is pleased to offer this opportunity, at NO COST, to teams comprised of the principal/other administrator, a student council advisor/other student advisor and a student council president/other student leader.
