

High-quality, trouble-free LED solutions from Musco.

Lighting Projects Made Simple®

Whether you're installing new lights or replacing old ones, our LED technology ensures precision and performance. And with Musco, projects are made simple from start to finish. Gain Peace of Mind with Quality LED Sports Lighting

Musco's complete system approach to lighting is factory aimed, wired, and tested to provide better performance, long-term reliability, and trouble-free operation for years to come.

Improved Light Levels & Uniformity

Photometric designs and computer models of your facility's layout ensure the light levels and uniformity you need for better visibility and playability.

Reduced Spill & Glare

Musco's patented fixture visoring reduces spill light and glare, saving energy and preserving dark nights for neighbors.

Reliable & Trouble-Free Performance

TLC for LED® technology in a complete system with lighting, structural, and electrical components built to work together for superior performance over non-system fixtures.

24/7 Service & Support

Musco's regionally based technicians ensure timely servicing of your lights, and Control-Link® proactively monitors your system 24/7/365.

Because no sports lighting is maintenance free, including LED, Musco backs its systems with a long-term warranty covering every part and all labor.
