SPONSORS:

The Long Island Sound Foundation in conjunction with the Connecticut Association of Schools

presents “MARINE SCIENCE DAY”

FOR 5th & 6th Grade Students

Thursday, May 19, 2005 9:00 a.m. – 3:00 p.m.

HOST

Department of Marine Sciences
THE REASONS WHY

The purpose of this conference is to educate students about Long Island Sound and Marine Science. Each student will be individually scheduled to participate in a series of workshops presented by university personnel, graduate students, and environmental educators from a variety of organizations and institutions. These workshops will promote a greater awareness of Long Island Sound and Marine Science.

Each student must bring lunch and a snack. The committee encourages each student to pack a lunch that will generate the least amount of trash. Bring your own beverage (no glass containers). Students should dress for hands-on activities, i.e. outdoors, boat trip and classroom floor, etc.

Materials will be distributed at the workshops. Each student is requested to bring a backpack or similar carrying bag.
