We already know what works in schools; we just need to focus on getting it right. This is the premise of Goodwin’s book *Simply Better: Doing What Matters Most to Change the Odds for Student Success*.

Quotes from Past Participants:

"The content was informative and practical. I brought back many of the key components to my building and district."

"Every session was valuable with relevant content, opportunities for networking, and strong leadership connections and applications. The series definitely increased my capacity as an instructional leader."

"The facilitated conversations were profound. I thoroughly enjoyed the broad sharing of ideas, experiences, and wisdom."

"This was so much more than the typical "sit and git"...well worth my time away from the building."

Each participant will receive copies of the following books:

PLS Objectives

- Internalize the five McREL components that research has demonstrated change the odds for student success:
  - Guaranteeing challenging, engaging, and intentional instruction
  - Ensuring curricular pathways to success
  - Providing whole-child supports
  - Creating high-performance school cultures
  - Developing data-driven, high reliability systems

- Analyze my personal, school, and district strengths and challenges relative to the five McREL components.

- Actualize one or more of the research components to effect positive change in my building, connecting this work to my SIP/DIP.

- Acquire a clear picture of what effective teaching looks like.

- Participate fully in a PLC focused on school improvement.
Anthony is the former Department Chair and current Professor of Educational Leadership at CCSU. Prior to joining the Department in 1990, he was a teacher and counselor, served as a principal of a hospital-based special education program, and was principal of a public elementary school in Berlin, Connecticut. Tony's areas of expertise center on school changes and administration, specifically how districts can work toward school renewal, and on teacher and administrator development across the career span.

Diane is the former Superintendent of Schools in Simsbury, and present senior consultant to CSDE Commissioner Pryor. She is also the senior consultant to the MA-based District Management Council and Director of the University of Connecticut Administrator Preparation Program (UCAPP), a nationally recognized certification program that has long benefited from her curricular expertise. Ensuring curricular pathways to student success remains her passion.

Bob is the Principal of Two Rivers Magnet High School, a CREC inter-district magnet school that features an integrated learning environment combining traditional academics with a focus on environmental science and environmental engineering. Prior to CREC, Bob served as the principal of the award winning Nathan Hale Middle School in Norwalk. There, his transformational leadership created a high performance school culture resulting in Nathan Hale being named the New England Middle School of the Year.

Kathy has served as Superintendent of Schools for Farmington since 2009. She has worked collaboratively with the Farmington community to establish a Vision of the FPS Graduate that merge rigorous content standards with the core competencies required of students to become successful in college, careers, and as citizens of a global society. Prior to her work in Farmington, she served as the Deputy Superintendent of the Greenwich Public Schools and Lead Principal for the Hartford Public Schools.

Bryan is the chief operating officer at McREL, responsible for managing internal and external communications, including media relations. Bryan played a key role in McREL’s review and analysis of hundreds of research reports on effective school and district practices which he distilled into the report Changing the Odds for Student Success: What Matters Most. The report serves as the foundation for Goodwin's book Simply Better.
