

PSAT 8/9 Assessment

*Presented by
Alan Bernstein, Senior Director*

This workshop will look at the grade appropriate test items found in this assessment and the reports available for schools and students. Since the PSAT 8/9 is designed to establish a baseline measurement of a student's college and career readiness, we will look at how the PSAT 8/9 scores and results align to the SAT® and other PSAT-related assessments. We will also discuss several new College Board resources designed for students, teachers and counselors that participate in PSAT 8/9. This workshop is designed for districts using the PSAT 8/9 who want to learn more and for prospective districts considering adding PSAT 8/9.

DATE: Tuesday, March 7, 2017

TIME: Check-in from 8:30-9:00 am. Workshop will run from 9:00 am -12:00 pm
