Join us to be a part of this dynamic student summit where your voice, your talents, and your creativity matter. This day includes active, experiential learning, where we'll explore the significance of Resistance in our world today. Through the lens of resistance and resilience, participants will unearth their own potential and engage in sessions infused with Art, Music, Poetry, Spoken Word, and Dance.

But what does *Power and the Legacy of Resistance* have to do with you? The answer is simple: Everything. It's the driving force that propels us toward personal success, happiness, and meaningful service to our communities.

During this conference, students and teachers will:

- come together to celebrate the enduring power and legacy of Black and Latino History, shaping a brighter future for generations to come;
- share personal insights and growth derived from the African American/Black and Puerto Rican/Latino High School Course; and
- embark on a journey of self-discovery, uncovering ways in which students can actively engage in Unveiling Power and the Legacy of Resistance, becoming architects of their own destiny.
